

PSYC202N : Personality Psychology

This course is designed to provide a basic introduction to personality psychology. Personality is defined as the attributes - behavioral, temperamental, emotional, and mental - that characterize a unique individual and that are relatively stable over time. This course will introduce theories, historical background, modern research, and research methods used in the study of personality. This course will provide the opportunity to broaden understanding of the science of personality and to think critically about the application of personality theory in everyday life.
